

**Poll Group: District 3 Commissioner**

**Poll: District 3 Commissioner**

**Grant Nadell**

Soccer is an incredible sport and providing an environment for youth players to learn, grow, love and accel within the game of soccer is my mission. We face trying times ahead as the game of soccer has many outside influences attempting to sway its governance in one direction or another. We need strong leadership, but leaders that are transparent, collaborative, informative, communicative and want to solve problems and roll their sleeves up and take on the challenging issues we all face. I believe I am such a person and will work tirelessly to that end. I support our members and believe in providing the best levels of service to them. This means being available, returning answers quickly and going the extra mile to make something work if that means just one more child getting on the pitch.
